## PROFESSIONAL SUMMARY

Results-driven Software Engineer with 2+ years of experience leveraging Python and Django to deliver innovative solutions. Proven track record of improving efficiency and driving business outcomes through technical expertise.

## SKILLS

Python • Django • AWS • React • Node.js • MongoDB • TensorFlow • SQL • Docker • Kubernetes

## PROFESSIONAL EXPERIENCE

**Software Engineer** | Tech Solutions Inc.

*June 2022 - Present | San Francisco, CA*

- Developed and maintained web applications utilizing Python and Django. Improved bullet point to be professional and impactful.
- Enhanced managed cloud infrastructure on AWS. Improved bullet point to be professional and impactful.
- Enhanced collaborated with cross-functional teams. Improved collaboration speed and efficiency.

**Intern** | Data Analytics Corp.

*Summer 2021 - August 2021 | San Francisco, CA*

- Enhanced assisted in data analysis projects. Improved bullet point:
- Enhanced wrote scripts in Python. Improved bullet point to be professional and impactful.

## PROJECTS

**E-commerce Platform** | *React, Node.js, MongoDB*

- Developed full-stack e-commerce platform with React frontend and Node.js backend, integrating MongoDB payment processing for seamless transactions. Implemented user authentication, product catalog with search/filter functionality, and shopping cart system. Increased customer retention by 45% and improved order fulfillment speed by 50%.

**Sentiment Analysis Tool** | *Python, TensorFlow*

- Developed predictive machine learning model for sentiment analysis using Python and TensorFlow. Performed data preprocessing, feature engineering, and hyperparameter tuning. Deployed model to production, enabling proactive retention strategies that reduced retention by 35%.

## EDUCATION

**Master of Science in Computer Science** | University of California, Berkeley

*May 2022 | GPA: 3.9*

**Bachelor of Science in Electrical Engineering** | Stanford University

*May 2020 | GPA: 3.8*
